[CRACK Server Operating Systems From Microsoft](#)

Leading Server OS vendors

- ▣ **Microsoft** : Microsoft came up with the only non-Linux hypervisor, Hyper-V, to compete in a tight server virtualization market that VMware currently dominates. Not easily outdone in the data center space, Microsoft offers attractive licensing for its Hyper-V product and the operating systems that live on it.
- ▣ **Citrix** was once the lone wolf of application virtualization, but now it also owns the world's most-used cloud vendor software: *Xen*
